

JANESSA REED

Henderson, NC | 202-929-7300 | reed.janessa21@gmail.com | jreed2021.github.io | github.com/jreed2021

PROFESSIONAL SUMMARY

Healthcare and data analytics professional with 7+ years of experience in high-precision, regulated environments and hands-on analytics experience using SQL, Python, Excel, Tableau, and Power BI. Applies data cleaning, validation, exploratory analysis, visualization, and statistical methods to investigate patterns, identify anomalies, and communicate actionable findings. Brings a background in clinical and laboratory operations, strong documentation and quality practices, and experience translating complex information into clear conclusions through graduate Business Analytics coursework and independent published projects.

CORE QUALIFICATIONS

SQL | Python (pandas) | Excel | Tableau | Power BI | Data Cleaning | Data Validation | Exploratory Data Analysis | Descriptive Statistics | Data Visualization | Trend Analysis

Healthcare Data | Epic Beaker | Root-Cause Analysis | Anomaly / Exception Identification | Documentation | Technical Troubleshooting | HIPAA / Regulated Operations

SELECTED ANALYTICS EXPERIENCE

- Medicare Payment & Utilization Research: Used Python/pandas to clean and validate public healthcare data, investigate outliers and unexpected patterns, compare relationships with Pearson/Spearman correlation, and communicate findings through visualizations and a published analysis.
- **Student Retention Analytics:** Analyzed public student-outcome data in Python, developed visualizations, compared patterns across age, occupation, scholarship status, unemployment, and inflation, and communicated findings through a published Substack analysis.
- SQL / BI Projects: Uses SQL to retrieve, filter, join, and aggregate structured data and Tableau/Power BI to build dashboards, investigate trends, and translate data into actionable findings.

PROFESSIONAL EXPERIENCE

Embryologist / Andrologist | Wake Forest Baptist Hospital | Winston-Salem, NC | **Jun 2023 - Dec 2024**

- Monitored clinical and laboratory workflows and reviewed data in Epic Beaker for accuracy, completeness, and unexpected discrepancies, investigating issues before downstream use.
- Performed root-cause-oriented troubleshooting of documentation, workflow, and system exceptions; compiled relevant details and collaborated with clinical and IT partners to resolve or escalate issues.
- Executed standardized SOPs in a time-sensitive environment, maintained audit-ready documentation, supported QC reporting, and identified opportunities to improve workflow consistency.

Laboratory Technologist | Cryos International | Raleigh, NC | **Jul 2021 - Jun 2023**

- Reviewed high-volume operational and laboratory records across information systems, identified missing or anomalous information, researched discrepancies, and coordinated corrective resolution.
- Prioritized multiple time-sensitive tasks while maintaining high data accuracy and compliance with FDA, CLIA, CAP, HIPAA, and internal procedures.

Senior Laboratory Technician / Laboratory Technician | Fairfax Cryobank | Fairfax, VA | **Jul 2017 - Jan 2021**

- Promoted to Senior Laboratory Technician after demonstrating consistent accuracy, independent problem-solving, and reliable execution in fast-paced regulated operations.
- Investigated record and process discrepancies, documented findings, escalated exceptions when needed, and maintained complete, traceable operational data.

Technical Support Representative | Teleperformance – Apple Support | Remote | **2025**

- Troubleshoot customer technology issues using documented procedures and diagnostic questioning, isolated likely causes, documented resolutions, and escalated issues requiring additional technical support.

EDUCATION

Master of Science, Bioinformatics | University of Maryland Global Campus | Apr 2025

Graduate Certificate, Business Analytics | University of Maryland Global Campus | Expected Oct 2026

Graduate Certificate, Cybersecurity Technology | University of Maryland Global Campus | Mar 2026

Bachelor of Science, Biology | Salisbury University
