PROFESSIONAL SUMMARY

Healthcare and data analytics professional with 7+ years of experience across regulated clinical laboratories, molecular diagnostics, and Medicare support. Skilled in SQL, Python, Excel, Tableau, Power BI, LIMS data integrity, claims and benefits record review, anomaly investigation, and operational KPI monitoring. Develops reproducible healthcare analytics projects and translates results into actionable findings.

TECHNICAL & ANALYTICAL SKILLS

SQL (MySQL) | Python (pandas) | Excel | Tableau | Power BI | ETL/ELT | Data Cleaning & Validation | Exploratory Analysis | Descriptive Statistics | Pearson & Spearman Correlations | KPI Monitoring | Operational Reporting | LIMS | Epic Beaker | EOB & Claims Review | HIPAA | RT-PCR | MyCallCloud (Contact Center)

SELECTED ANALYTICS PROJECTS

- **CMS Medical Care Ratings & Enrollee Experience:** Built a Python–MySQL–Tableau workflow for 308 CMS reporting units; reconciled imports, validated joins, and assessed medical care ratings versus enrollee experience (Pearson r = -0.132).
- **Medicare Provider Payment Analysis:** Cleaned CMS data with Python/pandas; examined skew, outliers, payment intensity, and Pearson versus Spearman correlations; published visual findings.
- **Federal Public Data Integrity Analysis:** Built a Python/MySQL ELT workflow for 375 federal data changes; resolved ingestion issues and evaluated agency and health-data patterns.

PROFESSIONAL EXPERIENCE

Verification Specialist (Contract) | EngageCX | Remote | Sep 2026 – Present

- Reviewed hourly agent performance reports for call volume, contacts, contact rates, conversions, and productivity; flagged inconsistent KPI definitions and escalated data-integrity concerns.
- Verify Medicare-related benefits information and document customer interactions accurately within established workflows.

Healthcare Customer Service Representative (Contract) | Instant Teams | Remote | Sep 2025 – Nov 2025

- Reviewed and explained Explanation of Benefits (EOBs), healthcare claims, and Your Spending Account (YSA) balances to retirees; verified member and plan information across secure systems.
- Explained projected next-year account balances based on retirement plan provisions and benefit allocations, translating complex benefits data into clear member guidance.
- Researched account discrepancies, escalated requests for account adjustments, and maintained detailed case notes while protecting PHI.

Embryologist / Andrologist | Wake Forest Baptist Hospital | Winston-Salem, NC | Jun 2023 – Dec 2024

- Validated clinical and laboratory information in Epic Beaker, investigated exceptions, and maintained SOP-aligned, audit-ready quality-control documentation.

Laboratory Technologist | Cryos International | Raleigh, NC | Jul 2021 – Jun 2023

- Reviewed operational, laboratory, and genetic-testing records; identified missing or anomalous information and coordinated corrections in regulated workflows.

COVID-19 Testing Technologist | Georgetown University | Washington, DC | Jan 2021 – Jul 2021

- Verified specimen identifiers and maintained LIMS sample tracking and 96-well test-session maps to support high-throughput SARS-CoV-2 testing and traceability.
- Performed RNA extraction and RT-PCR, recorded results, maintained inventory, and trained staff on molecular testing workflows and BSL-2 practices.

Senior Laboratory Technician / Laboratory Technician | Fairfax Cryobank | Fairfax, VA | Jul 2017 – Jan 2021

- Promoted to senior technician; validated laboratory and genetic-testing records, investigated discrepancies, and maintained traceable documentation.
