PROFESSIONAL SUMMARY

Healthcare and data analytics professional with 7+ years of experience in regulated clinical laboratories, molecular diagnostics, and Medicare support. Uses Python, SQL, Tableau, and Power BI for healthcare data validation, financial reconciliation, utilization analysis, and operational KPI monitoring. Builds reproducible analyses and communicates findings to support decisions.

TECHNICAL & ANALYTICAL SKILLS

Python (pandas) | SQL (MySQL) | Excel | Tableau | Power BI | ETL/ELT | Financial Reconciliation | Data Quality & Validation | Exploratory & Descriptive Statistics | Utilization & Spending Analysis | Pearson & Spearman Correlation | KPI Reporting | LIMS | Epic Beaker | EOB & Claims Review | HIPAA | MyCallCloud

SELECTED ANALYTICS PROJECTS

- Medicare Part D Spending & Utilization Analysis (2020–2024): Analyzed CMS drug-level spending and prescription claims using Python, MySQL, and Tableau; identified manufacturer/Overall aggregation double counting, reconciled 2024 gross spending to $288.67B, and quantified 4.66% spending versus 5.87% fill growth. Published an executive dashboard and case study. GitHub: github.com/jreed2021/medicare-part-d-spending-analysis
- CMS Medical Care Ratings & Enrollee Experience: Built Python–MySQL–Tableau workflow for 308 CMS reporting units; reconciled imports, validated joins, and evaluated Medical Care ratings against experience scores (Pearson $r = -0.132$).
- Medicare Provider Payment Analysis: Analyzed CMS provider data with Python/pandas; assessed skewed payment distributions, outliers, payment intensity, and Pearson versus Spearman correlations; published findings.
- Federal Public Data Integrity Analysis: Built Python/MySQL ELT workflow for 375 federal data changes; resolved ingestion issues and examined agency-level and health-data patterns.

PROFESSIONAL EXPERIENCE

Verification Specialist (Contract) | **EngageCX** | **Remote** | **Sep 2026 – Present**
